WHO AM I

With "Namibunny" as my online persona, I'm known for using an avatar to represent myself with everyone I interact with.

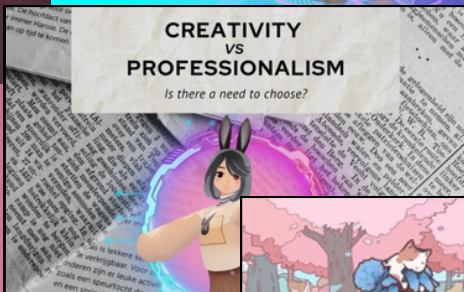

Music holds a special place in my heart and my goal is to share my meaningful interviews with as many people as possible.

On the tech side, I write reviews on the games that I play and any enjoy finding information on the latest motion capture technology.

Virtual avatars and vtuber culture (not AI) is about to become more mainstream. I emphasize how through them we can focus on the human connection in a way that others may not have realized yet.

Creativity vs Professionalism: Is There A Need To Choose?

TLDR: Maybe, but most likely no. While I've met many encouraging ones in a variety of fields, I'm aware of how my Vtuber concept can come across. Some have
